Cooperative at a glance

Pathivara Tea Cooperative Society Ltd established in 2010 is the only one tea growers in the lap of Mt Kanchenjunga (third highest mountain in the world 8586 m) located at Taplejung District of eastern part of Nepal. 74 tea farmers are the member of the cooperative. It has 6.8 hectares of tea garden. Besides that tea is cultivated in around 10 hectares of area by the member of the cooperatives. The tea garden is located above the 1200-4000 meter from the sea level. The cooperative is

Kanchenjunga Conservation Area is a protected area in the Himalayas of eastern Nepal that was established in 1997. It covers 2,035 km² (786 sq mi) in the Taplejung District and comprises two peaks of Kanchenjunga. It ranges in altitude from 1,200 to 8,586 m (3,937 to 28,169 ft). It is part of the Sacred Himalayan Landscape, which is being developed by WWF Nepal in partnership with the International Centre for Integrated Mountain Development. The landscape of the Kanchenjunga Conservation Area comprises cultivated lands, forests, pastures, rivers, high altitude lakes and glaciers. Mammal species include the snow leopard, Asian black bear, and red panda. Bird species symbolic of the area include the golden-breasted fulvetta, snow cock, blood pheasant, and red-billed chough. In April 2012, a leopard cat was recorded by a camera trap at an altitude of 4,474 m (14,678 ft). This record constitutes the highest known record to date. A melanistic leopard was photographed at an altitude of 4,300 m (14,100 ft) in May 2012. Yellow-throated marten has been recorded up to 4,510 m (14,800 ft) altitude in alpine meadow. producing annually 2000 kgs of various type of orthodox black and green tea. The cooperative is also attached with Kanchenjunga National Park (Established in 1997)

Tea produced by Pathivara Tea Cooperatives is organic by default by using compost manure. The garden lies at the foot hills of Mt. Kanchenjunga which covers the largest vegetation area with a combination of unique blends of natural factors for the growth of exclusive

aromatic tea. The land which was barely enough to sustain them is now utilized to produce High Quality Organic Orthodox Tea of the Himalayas.

Our Products

Product	Product Specification
